

Description

College Life program is a continuous program, held throughout the years the students spend studying on the faculty. This program begins at 1st semester and ends approximately at 8th semester. There are 2 kinds of activities :

1

Soft-skill development activities that are integrated as Hidden Curriculum in the academic curriculum.

2

Specific activities that are purposefully designed to improve the said targeted soft-skills outside the class. The activities take form of training, mentoring, workshop, and a few other activities that are integrated in class curriculum.

Participants

students are required to participate the program with schedules that are arranged based on their respective academic years.

Backgrounds

Student program is an essential program and integrated within student development activities, be it academics, soft skills, or any other kind of personal development that are able to support learning process (Santrock&Halonen, 2010).

The characteristics of our faculty students are shaped and harmonized with those brought up by the university, in which culture and philosophy act as a strong foundation underneath. Student competencies are based on Psychological Professional Behavior as formulated by APA (American Psychology Association). The collaboration between cultural values and internationally standardized competencies is expected to be a valuable strong point for our students in competing globally, developing psychology scientifically, and becoming tough, respectable individuals.

Purpose

College Life program aims to equip students with soft skills to uphold academic competencies and improve overall qualities of the alumni to be able to compete in the labor market.
